Note	<p><i>You can upgrade DTU-215, DTA-111, DTA-115 & DTA-2111 to GOLD option. The costs of the GOLD upgrade can be calculated by taking the difference between the price of the GOLD version and the price corresponding to the current configuration. Add € 500,- to this difference to get the upgrade price. If the difference is less than € 0,-, the upgrade price is also € 500,-.</i></p> <p><i>For example, to upgrade DTA-115-CM-SP to DTA-115-GOLD, you take the difference between the DTA-115-GOLD price (€ 3995,-) and the DTA-115-CM-SP (€ 2875,-) price, resulting in a price difference of € 1120,-. The GOLD-upgrade price will then be € 1120,- + € 500,- = € 1620,-.</i></p>

All prices are in EUR and exclude transportation costs, customs duties and sales tax
